

UNIT 10: Which Shaggy (TV cartoon character) best represents how you are feeling at the START of today's Group Chat?

Image Credit: [Goose](#)

Image Description: A grid of 9 images of the fictional character Shaggy Rogers of the long-time U.S. TV show *Scooby-Doo, Where Are You!* and movies (e.g., *Scooby-Doo The Movie*).

- Shaggy Image 1: Shaggy's face is elongated in front of him, and his hair is blowing toward his face, as if there is a strong wind coming from behind him.
- Shaggy Image 2: Shaggy is squinting, and his hair is pointing out away from his head in all directions as if a gust of wind is blowing directly into his face.
- Shaggy Image 3: Shaggy is standing in the rain, squinting at something in front of him with puffy eyes as if he had just woken up.
- Shaggy Image 4: Shaggy is staring at something in front of him with his mouth open looking tired and expressionless.
- Shaggy Image 5: Shaggy is looking directly at the camera with a slight frown on his face, and he has large bags under his eyes. His hand is next to his face with just his fingers showing.
- Shaggy Image 6: Shaggy is squinting with a scowl on his face; his shoulders are shrugged.
- Shaggy Image 7: Shaggy has a red shirt on instead of his typical green shirt. His ears are pointy, like an elf. His eyes are crazed with red and orange circles, and his mouth shows a line of fang-like teeth. He looks to be doing an evil laugh at something in front of him.
- Shaggy Image 8: Shaggy has a large smile on his face, his eyebrows are raised making his eyes look wider, and he is looking happily at something in front of him. The animation appears distorted, and it doesn't seem to be from the animated shows or movies.
- Shaggy Image 9: Only the top half of Shaggy's face is visible; his mouth downward is cut off. Shaggy's eyes are only half open and he looks to be very tired.
